

CartPark® Bumper

Molded side bumpers protect car doors from dings and dents, reducing damage claims.

Chipping a car door on a cart corral is not the way to begin a positive shopping experience. That's why the sides of CartPark Bumper are made of one big bumper. The brightly-colored dual signs are situated at the front of the corral, high enough to be seen over vans and SUVs.

Highly-visible Colorful signs are seen over mini-vans and SUVs, increasing voluntary shopping cart return

Customer Friendly Patented top-lock construction stabilizes the cart corral overhead so there is no ground frame to trip customers

Seamless storage area provides smooth cart return and cart pickup

CartPark® Bumper

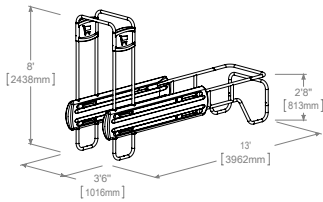

Molded side bumpers protect car doors from dings and dents!

Single Entry Unit

Materials: Galvanized steel pipe & HDPE
Standard signs include screened shopping cart graphic

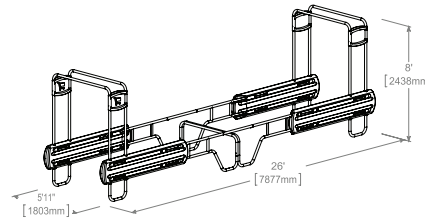

Double Entry Unit

Materials: Galvanized steel pipe & HDPE
Standard signs include screened shopping cart graphic
